HANDCRAFTED ELEGANCE

Novamix Décor

The Story

Novamix Décor Pvt. Ltd., India, is the exclusive agent of Novamix for the region of India. Novamix is a registered commercial name of Domochemichal S.A. as an advanced building material European manufacturer, based in Greece.

For centuries, the Greek style of architecture has had a profound impact throughout Europe and the world and is synonymous with intricate detail, symmetry, harmony, and balance. Novamix Décor brings India that delicate elegance of design by launching an exclusive range of conceptual products in couture basins under the brand name BACINO.

CORE COMPETENCY

Novamix Décor has decades of experience in the construction industry and proven expertise in diverse interior fit-out projects, having launched various products for Flooring, Acoustic and Cladding Solutions. It has leveraged its wide presence in the domestic market to successfully establish renowned European Brands in India over the last 20 years.

Novamix – Domochemichal S.A. has always been at the forefront of cutting-edge innovative manufacturing and is well known for producing top-notch building materials. With its creative architects and designers, and an extensive network of dealers and channel partners, Novamix Décor is excited to introduce a bespoke design of basins.

Vision

To be a leading solutions provider for all interior and exterior fit-out projects in the domestic market and establish a global footprint.

Mission

To dedicatedly focus on innovation, maintain international standards and concentrate on exports worldwide.

BACINO

The Brand

For the very First time, Novamix Décor is introducing an exquisite range of cement-based eco-friendly basins under the brand name BACINO, A blend of classic architecture and contemporary style, BACINO combines the elegance of minimalistic design and aesthetic appeal. Drawing inspiration from nature, the BACINO range applies bio-mimicry to hand-create exclusive innovations in basins.

What makes BACINO unique

BACINO is designed to cater versatile spaces with its unique textures and multiple finishes. Meticulously made by hand, each BACINO product is unique and exclusive, with varying textures adding to its beauty. BACINO is available in a wide choice of color ranges and numerous genres with solid, terrazzo and mother of pearls finishes.

The BACINO range can be used for interior and exterior applications and offers distinct finishes to embrace various places. BACINO's design and functionality can also be customized as per client's requirements subject to large quantities. There is an option to carry out repolishing too.

The BACINO brand promise, is not just about innovation and outstanding quality. Committed to minimize the environmental impact, BACINO range is manufactured using Novamix materials that have been certified by GEV as EC1 PLUS products; the highest available class of EMICODE® certification which is the international quality benchmark for low emission products.

HANDCRAFTED ELEGANCE

**State-of-Art
Production Facility**

The Novamix Décor modern production facility is equipped with the latest technologies. It employs industrially advanced and international standard production processes to quickly create the fine-crafted range of BACINO products.

Raw Material

Concrete-based raw materials are unique and allow the creation of products that constantly develop the design horizons. When graced by the hand, these timeless materials create beautiful textures with fine lines and smooth rims, patterned surfaces and color patina making BACINO exquisite and exclusive.

HANDCRAFTED ELEGANCE

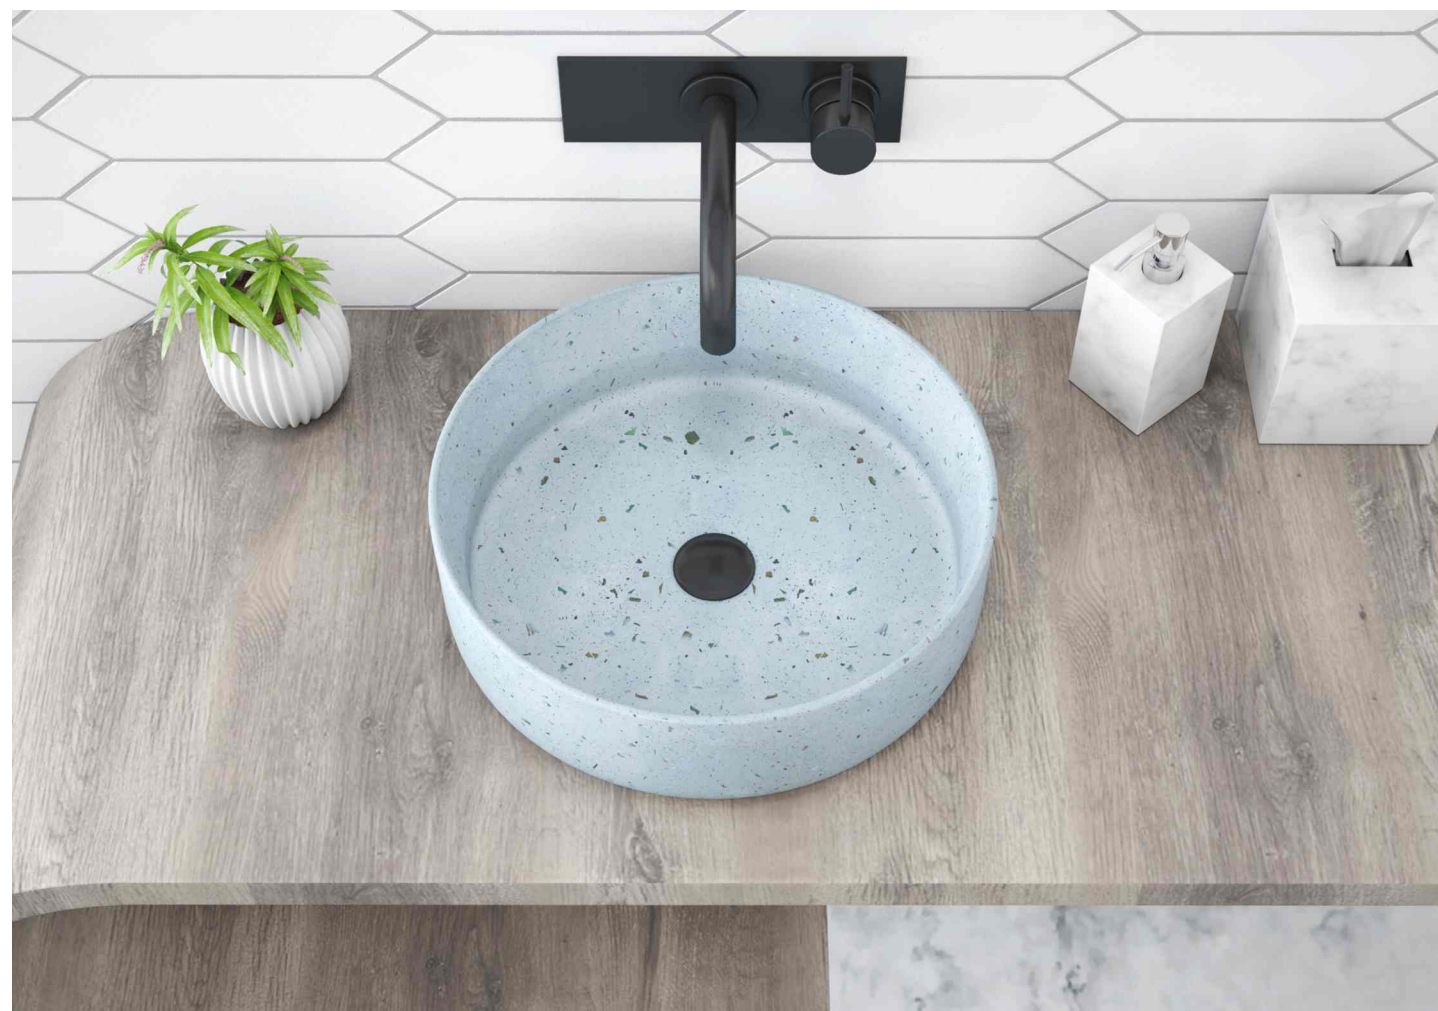

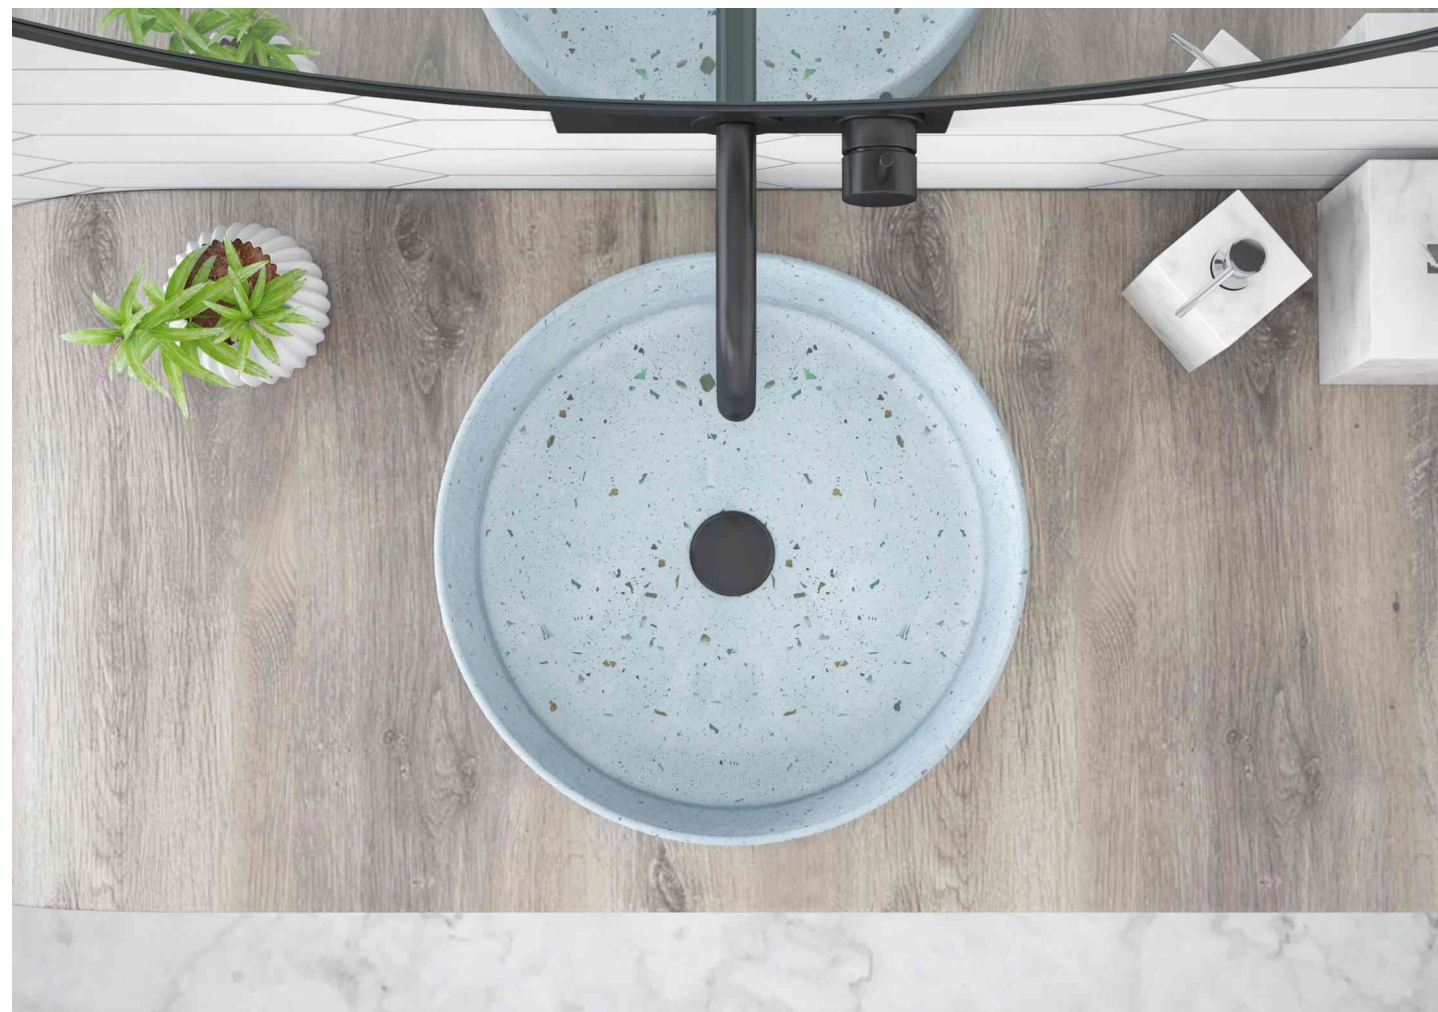

ORBIT

There is symmetry in geometry. Like in the geometry of nature's planetarium, ORBIT symbolizes a repeating path that one object in space takes around another. This principle of timeless proportion and balance was the inspiration of this design. ORBIT wash-basin blend creativity with functionality with an ingenious layout to diminish the water splashes.

TRAPEZE

In the world of quadrilaterals, TRAPEZE is a particular geometrical shape because of its parallel contours. Drawing inspiration from the harmony of this similar form and its ease of implementation, TRAPEZE basins envisioned its four sides to be parallel in couples. TRAPEZE has been designed to adapt seamlessly to any classic indoor or outdoor setup with a refreshing structured look that complements any sophisticated design.

OBLONG

The challenge of duality to be held together as one is literally demonstrated across the length and breadth of an OBLONG shape. Imbibing the concept of water flowing naturally without the two shores ever meeting, Novamix Décor recreated this free-flowing effect in the OBLONG category of basins. Moreover, the conscious thought of sharpening the edges while thickening the base makes these basins durable and unique.

OVAL

When conventional designs come full circle, out-of-the-box thoughts emerge such as the imperfect OVAL shape. OVAL shapes have been used in architecture for centuries to build arches, bridges, churches, windows et al. The imperfections of this shape is the ideal form for the OVAL genre of wash-basins, exhibiting a sense of freedom in creating a vision of perfection.

COCOON

The COCOON, with its rounded lines, is a fascinating stage in the development of an organism. It is nature's harness in which an internal process occurs before a being transforms into a whole new species. Inspired by nature's wonders, this design imbibed some of the captivating curves of the COCOON and blended them together to create an evolutionary wash-basin range.

Test Report

Bacino range of basins are manufactured using highest standards and are tested for the following parameters.

Technical Characteristic	Test Method	Result
Flexural Strength	EN-13892-2, ASTM C-348	9.0 MPa/ 1305 psi
Compressive Strength	ASTM C-109	35 MPa/ 5076 psi
Wear Resistance	EN-13892-3	9.4 cm ³ per 50 cm ² , Class A12

Warranty

Novamix Décor Private Limited warrants that the following products manufactured by Novamix Décor and supplied by an authorized Novamix Décor supplier will be free of defects in materials and workmanship, and, for a period of 1 year from the date of purchase.

Novamix Décor will rectify free of charge for any fault in the basins caused due to a defect in materials or workmanship appearing within the applicable warranty period subject to the conditions set out below.

Exclusions

This warranty is for normal domestic and commercial use only and does not cover:

- Any defect or injury caused by or resulting from misuse, abuse or neglect, accidental damage, improper installation or other alterations or modifications which affect the reliability or performance of the product not attributable to a defect in materials or workmanship.
- The effects of poor water quality and chemical attack which will affect the durability of the product.
- Any defects or injury caused by or resulting from products installed in a way that was contrary to standard installation methods or usage.
- Any defect or injury caused by or resulting from the use of epoxy glues.
- Any defect or injury caused by an act, default or omission of, or any representation made by, any person other than Novamix Décor Private Limited or its authorized dealer.

Care and Maintenance

For everyday care of your concrete basin, we recommend a soft, non-scratch sponge or cloth. If you wish to use a cleaning product, choose a soft natural soap. For best results, we recommend the use of cleaning vinegar. It does not only sterilize your basin but also limits scale build-up. In addition to cleaning vinegar, one can also use a scrubbing brush or a soft scourer. In the case of very stubborn dirt, please contact our offices or our authorized distributors for more information. We do not recommend the use of aggressive, abrasive or environmentally harmful products.

Important Notes

- BACINO range basins are only meant to be installed on top of a sturdy counter/ platform. If you want to install the basin in any other way we strongly recommend you to contact our offices or else it could lead to serious permanent damages to the basin which will not be a part of the standard warranty.
- The process to manufacture these basins is a flow dependent process hence the chips in Terrazzo and Mother of Pearl Finish basins are randomly spread and will vary in number, size and shape. This is what makes each basin a handcrafted unique piece of art.
- The base color of the basin may vary from piece to piece as per the change in texture/ finish of the product i.e. plain finish, terrazzo finish and Mother of Pearl finish.
